Assessor Comments	Buyers, here is a quality good line of weaned straight Angus heifers with top quality genetics showing plenty of compensational weight gain. These heifers present in store condition averaging 255kg. Heifers have nice thickness with depth of flank, having good length of body with softness, volume and femininity. Heifers are bred out of top quality southern bred Angus cows by very good quality stud Angus sires. These heifers have a wealth of breeding which would make ideal future breeders. This line of heifers where very quiet to handle through yards and in race. 5 heifers showed spot of old blight scarring but not detrimental, odd heifer has small white underline behind navel. Buyers note vendor has steer line in same sale.
