Assessor Comments	Buyers, here is a good line of weaned straight Angus steers with top quality genetics showing plenty of compensational weight gain. These steers present in store condition averaging 259kg. Steers have nice thickness with depth of flank, having good length of body with softness and volume. Steers are bred out of top quality southern bred Angus cows by very good quality stud Angus sires. These steers have a wealth of breeding to back them up. This line of steers where very quiet to handle through yards and in race. 4 steers showed spot of old blight scarring but not detrimental. Buyers note vendor has heifer line in same sale.
