	Steers handled the assessment very well for only recently being weaned. 1 steer became agitated under pressure but once released relaxed. These steers would suit all livestock handling ability.					
Handled With	Bikes , Dogs , Vehicles					
Assessor Comments	Buyers, a small but very nice line of Vendor Bred Shorthorn and Shorthorn cross steers. Steers sired by a Engella Shorthorn sire going back to Bluehook. Weighing 231-370kg to average 314Kg at assessment. Cattle have been yard weaned and now running on native pastures with no supplement. These cattle are proven performers out of large framed New England bred cows. A nice run of steers that would be ideal to background into Feeder weights. For further information please call.
