Assessor Comments	22 Angus steers 10-12 months of age weighing from 278kgs to 398kgs and average 336kgs at assessment with a 16 hour overnight curfew showing great growth for age. All these steers are very well bred being out of Pathfinder Angus blood cows and sired by the Pathfinder Angus bulls. An ideal opportunity to purchase quality Angus steers that will continue to grow out, an ideal opportunity for a backgrounding operation to take through to heavier feeder weights. Buy with confidence. *Vender has a run of heifers within the same sale*
