Assessor Comments	Outstanding line of Angus Heifers NSM. This a great opportunity to acquire excellent genetics with little expense spared, as the quality of these heifers through growth and type suggest. They were originally selected to be appart of the vendors replacement program but have now been offered to the market with a smaller number retained. Heifers are sired by KO stud Bulls and are a credit to the vendors breeding program. Heifers would make ideal future replacement females and are bred from genuine large frame productive females. They displayed good temperament at assessment and presented evenly as a group.
