Cattle handled well in yards , no issues. Very large set of yards so the lead tend to trot off but block up well. Would recommend dropping in yards on delivery and allow to settle.			

Handled With	Bikes , On foot , Vehicles
Assessor Comments	120 Angus steers 10/11 months old in store condition. All steers weighed from 280 to 339 kg. Steers are well grown for age and just starting to do coming out of winter. Well bred station steers out of Scotts Angus bulls. Cattle were backlined with Dectomax in June but there are still signs of rubbing in some cattle. Cattle handled well in yards , no issues with temperament. Realistic reserve for proper store steers , all frame no weight. Please ring with any questions.
