Assessor Comments	Good line of Upper Murray bred Angus Heifers from a high performing, moderate to large framed cow herd. Females that carry a rich genetic history with the original cow herd being based on Hazeldean Angus genetics, then exclusively using the Dunoon Angus genetics for over 15 years, with the recent introduction of Table Top Angus. These young heifers present in store condition having come off basic pastures and a tough Winter in the hills. Heifers that are all frame, with plenty of compensatory weight gaining to do, that would be ideal to background, give them the Spring, then start on a feed ration. Buyers please Note, vendor have another lot of the heavier brothers in same sale, as well as 70 of their sisters.
