Assessor Comments	Healthy fresh weaner heifers with good conformation, bone and depth of frame. Properly prepared for the next phase and showing good breed traits. Quality and appearance of these heifers gives show to optimum performance, provided good feed and management. Heavy Noogoora burr is present on these heifers due their time on oat crop in river paddock. Please view video. An odd heifer with white spot on underbelly or udder at assessment, and two with old wart scars. Please Note: The assessed liveweight at delivery is for loading - not arrival!
