The weaners handled well in spite of being freshly weaned, showing the training they have received while with their mothers. They have been educated with LSS practices and move calmly in, through and out of the yards. They are accustomed to bikes, horses and dogs. They have also been educated to single wire electric fences.

Handled With	Bikes , Dogs , Horses
Assessor Comments	A good quality line of medium frame Wagyu cross weaners. Out of Angus cows, they would suit a backgrounder to take to heavier weights. Sired by Trent Bridge Wagyu bulls Q297 or N203. The main Angus female blood lines used are Dulverton, Raff, Boshammer and XL Angus. This is a genuine clearance due to the property being sold.
