Assessor Comments	A neat line of well bred Angus Weaned Heifers. These heifers are a a July-Sept '22 drop. Bred out of a very good Tablelands cow herd based on KO and Gilmandyke bloodlines these heifers have all the attributes to make very good future breeders or simply grow out for feeder or kill markets. Heifers have really done since running on oats crop and give the buyer an advantage with these heifers really on the do. Av 341kg full and having a very good frame and length they will grow into very smart females. Buyers note heifers are showing signs of lice and rubbing.
