Assessor Comments	A nice line of vendor bred heifers that will not disappoint. These heifers are from a 60 year old breeding herd that focuses on selecting Bulls with good structure and high fertility. The Willow Glen herd is predominantly a Dunoon blood based herd with Barwidgee Angus Bulls integrated into them for the last 6 years. Heifers are out of Dunoon cows sired by the Dunoon & Barwidgee Bulls. They are lacking condition due to the wet conditions of the property, but with some feed they will bloom into exceptional females. Weaned since the first week of January. Heifers that would make suitable feeders or future breeders. Please note: 6 heifers had scarring on eyes, 1 heifer has a more noticeable scarring but is clearing up nicely, none are deemed detrimental. 2 heifers had minimal warts near eyes.
