Assessor Comments	These steers have a power of frame, they're well bred and will grow into very good quality domestic or export feeders. All eyes are free of blemishes, they are long and have good bone. These steers have been yard weaned a month ago, tailed out and had access to Wheat gradings for 3 weeks post weaning. Since weaning these steers have freshened up and are 'on the do'. There is one steer with small warts around his eye (not detrimental). This line of steers will not disappoint they are proven performers on grass, crop & grain. All the hard work has been done! I recommend these backgrounder steers.
