Assessor Comments	A high quality line of EU accredited Lawson blood Angus heifers to take on as future breeders. The Balcomb family have been using Lawson sires for the last 20 years always selecting bulls right in the top end of the quality bracket. They are one of the longest standing vendors in the renowned "Blue Ribbon Weaner" sales at CTLX where their calves carry a fine reputation. These heifers are just surplus to requirement and have had every treatment you would be looking for in females to add to any herd. Bred from sires selected for high growth, marbling and EMA, whether as a stand alone mob or to supplement an existing line to join these heifers bring plenty to the table and a worthy of your very close consideration. They will not disappoint. Note a second, slightly lighter draft in this same sale if you want to put a bigger line together.
