	These weaners are settling down very quickly. They will be tailed out and handled further between assessment and delivery so would envisage these will settle down even more by then. They are not totally yard savvy just yet so odd heifer is easily spooked and most will always follow ring leaders. Nothing that could be described as aggressive in the mob in the bigger yards and they still need to be steadied down through a gateway, not unusual.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs		
Notable Traits	Traits 4 Head Ring worm scar		
Assessor Comments	The Consuelo EU ACCREDITED and PCAS ELIGIBLE Santa backgrounder heifers that have developed a great reputation. These have been offered on A+ for the past 8 years and they always attract plenty of repeat buyers who have commented on the great performance these heifers deliver them. Heifers in plain condition and carry no excess fat cover so I would envisage these will provide buyers with a stack of compensatory gain as they were hitting the scales physically weighing approx. 20-30kgs lighter than their weight visually. Heifers look to have had no sign of any set back at any stage. Ideal for restockers to put away for the long term especially out in the western channel country areas or on crop for future breeding purposes or to heavier feedlot entry weight. Clean country buyers note they are offered GUARANTEED CLEAR of the dip. These are the heavier line (bang tailed) & drafted 250-336kgs. NOTE – PHOTOS AND VIDEO ARE OF THE ENTIRE HEIFER OFFERING UNDRAFTED DUE TO LIMITED YARD SPACE.
