	The only word to describe the temperament of these weaners is exceptional. These heifers handle very quietly in and out of the yards, they stood silently whilst being assessed and moved slowly out of the crush when released. An absolute pleasure to handle which will ensure their ability to do well wherever they go.							
Handled With	Bikes , On foot , Vehicles							
Assessor Comments	EU , Teys Grasslands, exceptional quality, Frame, no condition and a temperament that would allow these heifers to be handled by anyone. You couldn't ask for much more at todays affordable rates. These heifers would background for both the domestic or 100 day export grain market. Their content and quality would also allow them to be grass fattened for all premium grassfed markets. Well worthy of any inspection and a credit to their owners, only seasonal conditions force the sale of these cattle.
