	Steers worked very well though the yards, 4 steers were agitated in the crush but settle down quickly once back in the mob. Steers worked well in the paddock and responded well to the dog.		
Handled With	Bikes , Dogs , Horses , On foot , Vehicles		
Assessor Comments	The lead draft of very good quality, Vendor bred, EU Angus feeder steers by the Trio and New Turee bulls. These steers were great to work through the yards and is a testament to the work and stockman-ship that's gone into them at weaning. These steers perform well in both grass and feedlot environments and would power on for the given the opportunity. 3 steers were noted to have 1 or 2 small warts high on the neck - not considered a worry but worth noting. 1 steer with a small white patch in front of pizzle, 4 steers with white patches behind the pizzle. Front paddock steers, only selling due to the deteriorating season.
