These heifers have been running in a large mob under a rotational grazing system. They are easy to handle and respond very well to pressure. Typical of being run in larger mobs in a commercial operation the odd heifer seeks comfort from being with the mob. These heifers are more unsettled (not threatening in any way) when singled out and in my opinion/experience will settle with increased human interaction should they end up in a smaller mob.

Assessor Comments

An opportunity not to be missed. Scotts Angus are offering 112 head Aug/Sept 2022 "T" drop weaned Angus X Angus heifers. Genuine breeder heifers direct the Scotts Angus commercial herd with decades of quality genetics behind them. This line represent the tops of the drop from the Scotts naturally mated program with a +10% tail removed at assessment. All health treatments are up to date and these heifers are flourishing. They are displaying great weight for age being joinable in weight and condition at 11-12 months. They will complement any herd and would be ideal for anyone looking to get into some top quality Angus genetics in a buyers market. 100% weighed after 12+ hour curfew with the tops representing +350kg and seconds weighed 310-349kg. To be delivered as a run out the gate. The lead 72 hd will be offered in 4 lots of 18 hd and the seconds represent 40 hd offered as 20 hd x 2. These heifers come highly recommended and should you require any further information please call.
