Assessor Comments	Angus Heifers weaners , 12- 13 months, by Dunoon Angus bulls. Heifers yard weaned 7th April for 7 days, well educated at weaning so a pleasure to handle. Heifers drenched 27th July and second 5-in-1 vaccine 7th April, Treated with Incarcerate 1st June for lice. "May Park" have purchased Dunoon bulls for more than 20 years and have a closed herd of outstanding females. These heifers present in store condition with plenty of frame and will be perfect to join to the bull of your choice in October/November. Very attractive line of heifer weaners. Grass fed, no antibiotics. I highly recommend these heifers. 20% tail taken out at assessment. Please note: One heifer has white on navel.
