Assessor Comments	A great line of medium to large framed Shorthorn heifers 14-16 months weighing 313kg at assessment. These heifers were not to joining weights back in June due to being the later calves out of a 300 cow herd. The Arnott Family have spared no expense with selecting bulls sires using prominent bloodlines such as Eloora, Spy and Gundabri bloodlines. These heifers display plenty of length and depth with a good amount of bone, ready to take off in the spring. They have all had a Multimin Evolution, Paramax Pour On and Swish Pour On Lice And Fly Treatment. A great opportunity to to secure a very good line of heifers that would suit a breeding or fattening operation.
