Assessor Comments	Quality line of vendor bred Angus steers which present in store to forward store condition. Steers would be ideal to grow out into heavy feeder markets or export markets showing medium frame with length. Steers are bred from large frame cows being sired by Ardrossan Genetics which are notable performers on both grass and grain from previous sales in the past. Cattle have been running on Improved Pastures but season has recently started to turn with the sale of steers being a result of reduction. Buy with confidences !!!
