Assessor Comments	Angus Heifers 12-13 months, at assessment 243-335 kg full. By Top Alpine Angus bulls. Even well bred line of Angus Heifers. Recently drenched with Cydectin Pour On 20th Sept . Odd heifer with some old ring worm and some rubbing patches but heifers are over it and on the do now. These Heifers handled very well during the assessment. Rare for a run of cattle to be so consistent in temperament. Heifers are cleaning up in the coat coming out of winter and will do any job given the opportunity. Note: 14 very faint old pink eye scars, not detrimental. Note: See Video
