Comment on Fat Score 1 Cattle	Heifers are in forward store condition and have been on a dry cover of grass, all heifers strong and fit to travel any required distances.
-------------------------------	--

Vendor Bred	Yes
Stock History	The majority of these heifers were bred on "Trevanna" Cooyar where they were weaned and trucked to "Cairngorm" Bungunya. The remainder of the heifers were bred on the property.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable
Bloodlines	Heifers are bred out of a line of Santa and Santa x cows by Bullamakinka and Rosevale Santa Bulls. Vendor pays over \$10,000 for stud sires.

Grazing Conditions	Heifers have been grazing on a very short dry cover of flinders, buffel and native pastures. They have also had access to good quality oaten hay in the yards and will be fed hay in the paddock until delivery. Returned same

	These heifers were walked 6km to yards and kept in on hay until drafting and weighing commenced. Heifers were good to handle in yards and crush. Some heifers did react negatively when in crush and weigh box, once they were let out they settled back to the mob. These heifers were drafted several times and by the end of the assessing they started to show traits of anxiety when pressure was applied. I would advise giving heifers plenty of time to settle into new environment on arrival.		
Handled With	Bikes , Dogs , Horses		
Assessor Comments	Buyers here is an opportunity to secure 93 Santa and Santa x heifers. These heifers stand on good bone, with good length and depth. These heifers have the femininity and traits to grow into great future breeders. The "Cairngorm" and "Trevanna" cattle have proven results in feedlots on the Downs and are well known and sort after when offered in Roma and Dalby Saleyards. A number of these heifers were noted to have fly bite and a small amount of rub on their neck and heads. Buyers please note vendor has 123 heifers in the same sale.
