Assessor Comments	A Neat Deck of Good Quality feeder weight Heifers that are ideal articles for the feedlot, Heifers are in good fresh forward condition. Weighed out in a tight group weighing from 348 to 400 kgs at assessment. The Wilmot Finishing program usually would see these Heifers held to heavier weights and processed into the domestic market, but the prevailing seasonal conditions have forced their hand offering a great opportunity for a domestic feedlot supplier to capitalize on a line of even British and Cross Bred Heifers that would suit a 70 day feed program to a Tee.
