Handled With	Cattle have been very well handled and educated with horses, bikes and dogs. cattle were easy to handle in and around the yards. Bikes , Dogs , Horses		
Assessor Comments	A good quality run of Weaner steers that are apart of a planned reduction in numbers of Young Cattle from Wilmot Cattle Co. Steers are 2023 Autumn drop that were early weaned and have collectively come from all of their four breeding operations. Cattle were either bred at at Wilmot or brought here to background or finish in line with their normal program, but unfortunately the prevailing seasonal conditions have meant these cattle have to be sold to make room for breeding stock. Cattle are vendor bred, grass fed and Antibiotic free with a Declaration available on request. Wilmot take pride in having their young cattle handled and educated and this line is no exception, Thus having cattle with good temperaments only helps with the business of putting on kilos. Cattle are up to date with health treatments and are on the improve in condition considering a tough seasonal phase through spring. Cattle to suit all end markets, don't miss this great opportunity.
