	These Heifers have a tendency to run when first put in the yards. A few did not settle but to be fair we ran them in and started the assessing process straight away. They are Heifers that are easier to handle if left to settle first. Overall Heifers that are easy to handle by experienced operators.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	A tidy line of well bred Millah Murrah blood Heifers that are the ideal condition and weight to join. They would alternatively finish very quickly on grain or grass. As you can see by the video they have the frame , conformation and muscle pattern you would expect from the Millah Murrah blood lines. The breeder has selected bulls on type not price and this shows through. The market conditions are ideal to get a step up in quality for reasonable value. One has hair rubbed off the rump.
