Handled With	Heifers were easy to handle in and around the yards, the odd heifer was a bit sensitive when getting mouthed. Dogs , Horses		
Assessor Comments	A great opportunity to capitalize on a depressed market with some young females that have their whole breeding future ahead of them. The Accalay Heifers are from a herd with a base of Glen Morgan and Palgove Charolais genetics. Heifers are on their first calf and doing a good job considering the conditions, unfortunately the agistment period has come to a end and these heifers and calves must be sold. Good quality breeding units with well bred Glen Morgan sired calves at foot. Heifers have been running back with the bull since the start of September. 12 out of the 16 calves have been Branded, marked and vaccinated. Please see another 7 Angus PTIC Heifers that are from the same mob that are slightly later in calving in this same sale.
