	The cows were very easy to handle throughout the yards and over the scales. A credit to their temperament being Pregnant tested the day before and back through crush to be weighed and mouthed at assessment.					
Handled With	Bikes , On foot , Vehicles					
Assessor Comments	3 in 1 units. This is a very attractive lot of cows and calves. The cows are mostly large frame with only hand full of medium frame. Long bodied, plenty of bone and good milk producers - the calves are proof. They are in good condition with the majority being better than store condition. Easy to handle around the yards and in the paddock. They are up to date with all their health treatments likewise the calves. The odd cow has a slightly cloudy eye but not detrimental. The calves were marked in July - 11 Steers and 11 heifers. The calves range between 100-242kg and average 196kg. Calves are sired by Knowla Stud Angus Bull (Powerplay). Cows have been preg tested in calf 10+ weeks to a high indexing Wagyu bull. The only reason for selling these cattle is the season. The purchaser will not be disappointed with these cows and calves. NB vendors have 2 other lots in same sale.
