Assessor Comments	Seldom does the opportunity come along to purchase cows of this quality and Te Mania blood. Large and very large frame cows that have been PTIC to High indexing Wagyu Bull (marble score 9.3). 29 Cows were preg tested 10 to 12 weeks in-calf & 3 cows were tested 5 to 6 months in-calf, they are all in-calf to the same Sumo Wagyu Bull. I have been lucky enough to sell the calves out of these cows for quite some time and they are excellent mothers. Easy doing, plenty of bone, capacity and lovely skin. They display all the traits of real matrons. Having been joined to high marbling Wagyu bull - giving the purchaser a start into the F1 market. The odd cow has a slightly cloud eye but not detrimental. These cows not should not be overlooked. Highly recommended. Vendors have 22x22 Angus cows & calves PTIC to a Sumo Wagyu Bull in same sale.
