	Cows were a pleasure to handle throughout assessment. Odd cow didn't appreciate the mouthing process but left the crush calmly. Excellent temperament cattle and this has been passed onto their calves.		
Handled With	Bikes		
Assessor Comments	Outstanding quality line of PTIC Angus cows. Cows are genuine larger frame types which carry their weight and condition very well with big calves recently weaned. They stand sound on their feet and present in forward store to slightly forward condition. Cows have had calves weaned 10 days ago and really starting to respond with less pressure on them. Cows were purchased as PTIC in 3 lines from the Glendower dispersal at orange in Nov 2022. They are pure Rennyalea blood and have been for 25 years. Cows carry an excellent temperament and would be a credit to any herd. They recently weaned 5-6 month calves at 230kg which is a testament to the quality of these females with minimum nutrition the district is faced with.
