Assessor Comments	A very neat run of well bred, Clea Angus females, preg tested in calf to Clea Angus bulls to calve late March for 5 weeks. Cows are in excellent condition, well grown and true to type. Only being sold now due to missing going in calf with rest of their mob and so were re-joined for an Autumn calf. Cows represent a great opportunity to add quality to a good Angus herd or to trade later next year as markets improve. All cows have calved in the past. Please note: Vendor also has lot of 20 PTIC heifers on Auctionsplus today.
