| Assessor Comments  | A line of 25 PTIC Angus heifers that are joined to a LBW Angus bull being of IVERAGH blood. The heifers were preg tested on the 26/09/2023 by Rochester Vet Clinic with there being 1 heifer 4 months in calf and all the others being 5-6 months in calf. The heifers were purchased ex AuctionPlus in April 2023 from the Tumbarumba area and have since been grown out and joined by the vendor. These heifers present an wonderful opportunity for breeders looking to boost there numbers, without the wait time of joining them yourself. Please note there was 6 heifers noting as having old pink eye scarring and 1 |                                           |                                     |

|                    |                                                                                                                                                                                                                                                                                                                                                                                              |
