Assessor Comments	Quiet line of Lawson Angus bloodline cows with Hereford calves at foot. Cows are on their third calf and doing an excellent job with them. Calves are thick and sappy with loads of bone. One cow is significantly lighter in condition to the others however all the calves are even, evident she is in working condition. Same cow also has an old pinkeye scar which photo shows. Eight bull calves out of ten, calves have received their first vaccination treatment on the 18th of October, not marked. Cows not rejoined
