	Most of them are slightly stirry in yards and in crush		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	15 Angus heifers PTIC to a low birthweight Boonaroo Angus bull due to start calving late February for up to 16 weeks, these heifers were purchased via Naracoorte January weaner sale account V & L Munro (Gum View) they are Pathfinder blood and the Munro's only use the best genetics from Pathfinders annual sales, they are presenting in ideal condition for calving and are really starting to shine up and look there best at assessment these heifers averaged 465kg and ranged from 390-496kg. Buy these heifers knowing that you are buying from the top in terms or genetics and have the Angus calf inside that isn't really that far away.
