| Assessor Comments | Very well bred line of NSM classed in poll merino ewes with lambs at foot. Ewes and lambs carry a clean bill of health with the ewes doing an excellent job with their first lamb at foot. Ewes are genuine medium frame productive types carrying a march skin. Lambs are still fresh but ready to be weaned in the near future. The group represents many opportunities to shear and retain the ewe to be joined or shear freshen and re offer to the market. The lambs will meet trade export weights if given the opportunity also. Please note vendor also another line in the same sale which represent the dry portion to these ewes and worthy of another chance of conception. Please call for further information. |
