Assessor Comments	**Final stage of the Cameron family complete flock dispersal** Tops of their drop, ready to join, Ewe Hoggets (Just breaking). This Exceptional line of pure Austral Eden blood ewes represent the final mob of Merinos on farm. After making the tough decision the disperse the flock, and change over to Dorpers for ease of management as part of a pre-retirement plan. Exceptional Ewes, very upright-built, with good feet, full of bloom with a very good top on them. In ideal 3 & 4 score condition to put out with the ram of your choice. Ewes that have only taken forward steps their whole life and never had a set back. Cutting 4.5kg with only 10mths, with the flock average being 7.5-8kgs. Proper dual purpose, smart investment young sheep. Don’t miss the good ones in a buyers market!
