Assessor Comments	Good quality line of vendor bred Hereford Steers with a wealth of genetics running through them. Steers are really starting		

to clean up in the coat and are displaying excellent temperament, good eye pigment and dark colouring. Given the right opportunity these cattle are ready to power ahead. Recently Drenched (Cydectin Platinum, Flukeazole) Vaccinated with (Multimin). These steers have been well handled, and would suit feedlotters or restockers to grow out and fatten. Liveweight at assessment 315 - 466kgs to average 388kgs. Intending buyers please note there is another lot of 29 steers off the same property, in this sale.
