Temperament not assessed in
Paddock

Well educated young steers. All led up the race sensibly and stood quietly. Stepped on the scales without hassle and most exited at a walk. Led out in to the paddock quietly for photographing. A few steers with a slightly bigger flight zone that were more anxious in closer proximity to the handler in the yards and/or crush. Listed above as slightly stirry. Steers that are still only young, and will improve with age and further handling.

Assessor Comments

Nice line of EU Angus Steers. Healthy young steers in strong store condition and on the do. These are an ideal lot of baby bullocks to do a back grounding job with, or start straight on a feed ration now. Steers have plenty of length, and stand up with stacks of bone, out of a herd of large framed females, by high growth bulls from Rennyalea & Dunoon Angus studs. Fresh steers that will make high yielding export bodies. Buyers please Note. 1 steer with a white eye, deemed less than 5% vision. He's a very quiet steer, and the heaviest in the mob at 437kg. He is at the buyers discretion to leave out. Please see photos & videos.
