|             | The bulk of the steers were generally easy to handle, they flowed through the yards easily when drafting and processing. However there was 3 steers, that did rush slightly in the race, and also moved about when on the scales (slightly stirry). Once back with the balance of the steers they were quite calm. |                                           |                                     |
