Vaccinated	15/02/2023	5 in 1 (Branding)

Chemical Residue	Clear - No known history.
Eligibilities	Russian Eligible Saudi Eligible
J-BAS Score	6

Vendor Comments	These are part of a normal annual turnoff. These were very good to handle on horses whilst mustering for assessment.

Temperament

Store Condition	
Store	100%

Yards	Crush	Paddock
Quiet: 98 head Slightly Stirry: 10 head	Quiet: 101 head Slightly Stirry: 7 head	Temperament not assessed in Paddock

These were very good to handle in all aspects of the yards. They marched up the race very well and most were steady on the weighing platform, a few jumped about a bit. They were also good to handle in the bigger yards but like all cattle need to be steadied through gateways and stood up well during photographing. Buyer advised to settle these steers on arrival before letting them go out of the yards. Vendor stated these are very good to handle on horses in the paddock.

Handled With	Bikes , Dogs , Horses
Assessor Comments	Buyers, here are 108 weaned steers best described as Santa/Shorthorn/Hereford Composites with a few by Charolais bulls. Presenting in mainly store condition they will offer buyers good compensatory weight gains when introduced to crop, grass or grain. Note they also had a big sweat in the yards prior to assessment further emphasizing compensatory gain. Steers once again exhibit softness, good bone, length, depth of barrel and weight for age considering the dry seasonal conditions endured this year. The vendors are not frightened to spend money on the right genetics, always looking to move their herd forward & not just mark time. Suit to take on to heavier export feedlot entry weights or take all the way to bullocks off crop. Steers don't look to have suffered any setbacks at any stage. We are receiving excellent feedback from past buyers, some being repeat buyers about their performance.
Assessor	**Bob Jakins (Level 1 Accredited)** Phone: 0419 788 366
