Cattle worked well through draft and up the race at assessment in very hot conditions. Vendor has educated through the yards with a big emphasis on quiet stock handling.

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Vehicles
Assessor Comments	A 3 deck line of Santa & Santa Cross Heifers that are PCAS Eligible and present in strong store condition. Heifers are best described as all frame with plenty of compensatory gain to be had given access to fresh feed. Majority of this line of heifers would usually be kept on as replacement breeders & are only being offered due to worsening seasonal conditions. At Assessment 3 x Heifers were noticed to have warts around eyelid/head but are not seen as detrimental. At assessment 2 x Heifers noticed with age brand NB#2 with balance being age brand NB#3. A line of heifers to suit as future breeders or put the kilos on and get to feeders. Buyers please note these cattle were assessed in very hot conditions & there is 2 x family brands in this line of heifers.
