Steers moved freely through the yards and required blocking up on the odd occasion, A small percentage became unsettled in the crush when being weighed and mouthed but settled once back with others.

Assessor Comments Buyers on offer are 24 milke tooth steers presenting in strong store condition, Steers show good bone and body type and show all assets to grow into a good line of feeder steers or bullocks for indending byers. Steers are ideal to take through to heavy feeder steers for the 100 day export job. Cattle present in store condition and given the right opportunity will have plenty of compensatory weight gain in them.
