	Quiet: 80 head Slightly Stirry: 8 head Stirry: 1 head	Quiet: 76 head Slightly Stirry: 12 head Stirry: 1 head	Temperament not assessed in Paddock

	Craigie Station cattle are very well handled and worked quietly through yards. These steers worked well through home yards while being drafted and assessed. A % of steers became unsettled when confined but were quick to resettled when released back into mob.
Handled With	Bikes , Dogs , Vehicles
Assessor Comments	A line of 89 good quality vendor bred Simmental cross yearling steers presenting in store condition that had a LWT range at assessment of 220 - 340kg full to average 270.2kg after a -5% curfew. Buyers this is a good opportunity to purchase a line of steers showing good growth for age and plenty of compensatory weight gain. The Craigie Station cattle showcase some of the leading Lucrana Simmental and Glenlands Droughtmaster genetics are renowned for their doing ability and performance. Steers are PCAS and grasslands eligible and would suit to background, feed or fatten on crop. Please note; A small % of steers had old pink eye scarring in one eye. A large % of steers were noted at assessment to have weeping eyes due to dusty conditions and flies being thick, any steers with active infections will be treated at the time of delivery but will NOT be pulled out. This vendor has multiple lots in same sale.
Assessor	**Ben Johnston (Level 1 Accredited)**
