	Craigie Station cattle are very well handled and are worked quietly through yards. Hfrs flowed well through home yards while being drafted and assessed. A % of hfrs became unsettled when pressure was applied while being drafted, these hfrs tended to push through the race and were adjitated when confined in crush but resettled quickly once released back into mob. As a mob hfrs were settled during photos but would rush through gates if not steadied by yardman. Not suitable for hobbie farmers.

Assessor Comments	A line of 54 good quality vendor bred Droughtmaster and Droughtmaster cross yearling heifers presenting in forward store to forward prime condition that had a LWT range at assessment of 245 - 395kg full to have an estimated average delivery weight of 292.8kg. Buyers this is a great opportunity to secure a line future breeder heifers showing softness, good growth and weight for age. The Craigie Station cattle showcase some of the leading Glenlands Droughtmaster genetics are renowned for their fertility, doing ability and performance. Heifers are PCAS and grasslands eligible and would also suit to feed or fatten on crop. Please note; This vendor has multiple lots in same sale.
