Comment on Fat Score 1 Cattle: All heifers are in strong store to forward store condition. Should be no issues with transport if correct procedures are followed.

Vendor Bred: Yes

Stock History: Heifers are by Texas Angus or Raff Angus bulls out of dams which are a mix of vendor bred and and females which were purchased following the drought.

Lifetime Traceable: 100% of cattle in this lot are Lifetime Traceable

Bloodlines: Texas Angus and Raff Angus bulls used.

Grazing Conditions: For the past 6 weeks the heifers have been supplementary fed in the paddock on a milled mix of rolled Faber Beans + Almond Hulls + Hay (straw). The supplementary feed has not been ad lib and the paddock feed has been a bit light on. Doing well.

Temperament

Yards	Crush	Paddock
Quiet: 49 head Slightly Stirry: 9 head	Quiet: 49 head Slightly Stirry: 9 head	Temperament not assessed in Paddock

Heifers were lively in the crush but settled straight away after exiting. The settling in the yards can be seen in the photos. They show strong movement when moving from pen to pen as can be seen in the videos but then will stand quietly when left to do so.

Handled With: Bikes

Assessor Comments: A mostly good quality line of backgrounder heifers, most medium with just the one heifer small frame. Surplus to requirements, they suit to background to domestic feeder weights or heavier. Note grass market eligibility will depend on the type of program given the supplementary feed. They have been treated twice with Bovilis MH + IBR - bottle and batch numbers available on request. Some heifers were noted with swelling on upper neck at injection site. One heifer noted with a slight twist in the nose, didn't appear to be affecting doing ability. Also available this sale same vendor are 92 steers plus 30 heifers closer to Guyra which belong to another family member, similar breeding.
