Notable Traits

	Traits
1 Head	White dot on eye (Scarring)

Assessor Comments: A very useful small line of vendor bred Angus heifers. These heifers are out of Millah Murrah blood cows and by Tooraweenah Emperor (TRNR2). They posess good genetics and have been held back by the season but offer cheap entry into a breeding programme or as grower cattle. They present in store condition however strong and healthy. Normally they would be retained in the Angus herd but season dictating the play. One heifer has a slight eye blemish, hardly noticeable. The heifers should average approx 200kg at delivery. They are running on dry natural pastures and being supplemented hay.
