Still carrying their winter coat, observed approx 12 head with some warts on face & neck, 2 head with white underline, 2 head with cloudy eye and one head with small vaccination scar on neck, deemed not detrimental. 2 tooth steers marked on shoulder with yellow spray, other steers marked on rump with yellow for management only. Vendors tags will be removed prior to delivery, some with mud on legs. Steers ready to go ahead on feed, quiet to handle through yards and accustomed to feeders.
