	Slightly Stirry: 4 head		Slightly Stirry: 4 head		Paddock
	Heifers handled very well in yards as shown in the video.				

Handled With	Bikes , On foot , Vehicles
Assessor Comments	The Knyvett Family have been breeding Angus cattle for 25 plus years and have been using a lot of Ai programs to get leading genetics annually . These heifers are by EF complement 8088 ,Rennylea M710 and Strehewen Time out E11 . The heifers where joined for four weeks this shows the fertility with in the herd so they will calve from the 1st June for 4 weeks,they have been joined to Sons of the low birth high growth bull Chiltern Park Picasso +1.5 Birth and top20% for growth and 10% for milk plus top 2% for Carcase weight for the Angus breed. Hard to find a Quality run of heifers like this with the breeding behind them . They are very good to handle in the yards a couple jumped around the crush a little bit but when came out settled fine as seen in the videos . Note; There are 5 heifers with white in the udder area and two have a little slash of white near the navel .
Assessor	Paul Banks (Level 2 Accredited)
