Assessor Comments	The Knyvett Family have been breeding Angus cattle for 25 plus years and have been using a lot of Ai programs to get leading genetics annually . These heifers are by EF complement 8088 ,Rennylea M710 and Strethewen Time out E11 .		

Hard to find a Quality run of heifers like this with the breeding behind them . The heifers would make nice breeders or suit to feed on for the EU market they are very good to handle in the yards a couple jumped around the crush a little bit but when came out settled fine as seen in the videos . Note; There are 2 heifers with white in the udder area.
