Other Joining Details	TeMania Angus Bulls have been running with these young cows continuously since calving.		
Temperament	Quality Grades		
	Good	100%	
	Yards	Crush	Paddock
	Quiet: 14 head	Quiet: 12 head Slightly Stirry: 2 head	Quiet: 14 head
	Quiet cattle that were very easy to handle through the yards. Majority were placid through the crush and showed relative calmness while being mouthed, with only 2 cows showing some resistance to the head bale, settling quickly upon release. Settled young cows with excellent maternal instincts, mothering quickly when released into the paddock for photographs & video.		
Handled With	Bikes , On foot , Vehicles		
Notable Traits	Traits 1 Head One cow has a grey cloudy eye on one side only		
Assessor Comments	A lovely quiet line of well bred, predominantly 2nd calver young cows, with 1 x 1st calver heifer in the mob. These young cows are growing out nicely, & are doing a terrific job on the TeMania sired calves at foot. Cows have been running continuously with the TeMania Angus bulls since calving, creating a potential opportunity for a rejoining. The majority of these 2nd calvers were purchased ex Auctions + out Southern NSW & Victoria, as yearling heifers, with bloodlines all based on TeMania genetics, making them of similar type, with the addition of 1 x first calver heifer bred by the vendor. These young cows present in fresh forward condition, are of good frame, with further development still left in them, & are producing plenty of milk, which is evident in the sappiness of the soft & square calves at foot. Easy handling, quite cattle at the peak of production. A couple of calves present with slight ringworm marks around the head, which does not seem to be affecting their performance.		
Assessor	John Hyland (Level 3 Accredited) Phone: 0429 207 560		
Delivery Period	18/11/2023 to 24/11/2023 (7 days)
