	Slightly Stirry: 3 head		Slightly Stirry: 1 head
	Heifers were easy to handle through the yards. Brought up from the back yards easily, and just kept leading through the yards sensibly, looking for the next open gate. All led up the race well and walked on to the scales with minimal hesitation. A few were displaying some mildly anxious behaviour in the crush, after their last visit was to be preg tested. Just one that was actually doing some weaving and stomping, listed above as slightly stirry.

Assessor Comments	Stylish line of young, healthy, pure Te Mania blood heifers being offered in 2 lots, ROTG, 40 Total, With another 52 of the lighter sisters in the same sale, making 92 PTIC Heifers in Total. These are fresh young heifers showing off a good healthy shine, starting to bag up and get ready to commence calving in just 8 weeks. By high marbling sires, and joined back to high marbling sires (See sire EBV's) - guarantee, these young breeders will be absolute marble making machines! Females that present a very good opportunity for a quick turn over investment, by simply calving down and selling on with a calf at foot. Or use this opportunity to introduce some very well established genetics in to you herd, and get on the front foot with a line of heifers with a very good reputation for feedlot performance, with the steer portion being sought after by top end feedlots. Note. Traits are representative of the whole 40 head.
